

### **The surroundings of Florence. Leonardo da Vinci and his home town.**

The visit starts in Anchiano, a resort two kilometres away from Vinci, where, according to the tradition, Leonardo was born. We will walk back to Vinci, possibly following the road which winds between age-long olive groves, with wonderful views of the surrounding landscape.

Strolling through the medieval village of Vinci, we will reach the Museum of Leonardo, (subject to entrance fee) featuring models of the machines designed by the great genius. In this way, it will be possible to know Leonardo's work as an inventor, technologist and as an engineer. This itinerary is particularly suggested to school groups.
